## MONTANA BARLEY SHIPPED TO OUT OF STATE DESTINATIONS

MOVEMENT SHOWS INCREASE: Montana barley shipped to out of State destinations continued to increase over the past three 6-month periods. Shipments during the first six months of the 1972-73 crop year totaled 11.7 million bushels--almost double that for the same period during 1971-72 when shipments were reduced by the dock strike. Most of the July through December 1972 increase stemmed from a large expansion in the amount of barley shipped westward by rail. Total eastern movement for the same period (July-Dec. 1972) totaled 2.6 million bushels--up about 1.2 million bushels, while western movement totaled 8.7 million bushels--up about 4.3 million bushels from the same period a year earlier.

Total barley trucked out of State during July-December 1972 totaled 3.4 million bushels--up 17 percent from the same period in 1971. Rail shipments at 8.3 million bushels (July-Dec. 1972) were over 2½ times larger than a year earlier. This report is based on data from commercial elevators representing 95 percent of the commercial storage capacity in Montana, and from licensed truckers. It does not include barley moved through unrecorded channels.

## MONTANA BARLEY SHIPPED TO OUT OF STATE DESTINATIONS

LARGE INCREASE IN MOVEMENT: Shipments of Montana barley to out of State deatinations increased sharply over the past four 6-month periods. Shipments during the 1972-73 marketing year totaled 29.4 million bushels--nearly double those for the 1971-72 period. Most of the increase was the result of expanded shipments of barley westward by rail. Eastern movement totaled 4.0 million bushels for the 1972-73 period--an increase of 129 percent from the previous marketing year. Weatern movement of 24.8 million bushels accounted for 84 percent of total recorded movement--an increase of 93 percent from the previous year.

Trucks hauled 7.0 million bushels of barley to out-of-State deatinations in the 1972-73 marketing period, 15 percent less than in 1971-72. Rail shipments totaled 22.4 million bushels--an increase of 227 percent.

This report is based on data from commercial elevators representing 95 percent of the commercial storage capacity in Montana and from licensed truckers. Barley moving through unrecorded channels is not included.

## MONTANA BARLEY SHIPPED TO OUT OF STATE DESTINATIONS

BARLEY MOVEMENT DECLINES: Shipments of Montana barley to out of State destinations during the first half of the 1973 marketing year (July to December 1973) declined 17 percent from the same period one year ago. Most of the decline is attributed to decreased trucking of barley westward from District 2, although increased movement westward by rail partially offset this decline. Both July 1, 1973 carry-in stocks and 1973 production were below the previous year.

Eastern movement during July - December 1973 totaled 1.5 million bushels--a decrease of 45 percent from the corresponding period one year ago. Western movement for the same period was 7 percent less than a year ago at 8.1 million bushels.

Trucks hauled 1.7 million bushels of barley to out of State destinations during July - December 1973--a decline of 51 percent compared with July - December 1972. Rail shipments totaled 8.0 million bushels--a decrease of 3 percent compared with July to December 1972.

This report is based on data from commercial elevators representing nearly 95 percent of the commercial storage capacity in Montana and from licensed truckers. Barley moving through unrecorded channels is not included.

### MONTANA BARLEY SHIPPED TO OUT OF STATE DESTINATIONS

BARLEY MOVEMENT DECLINES: Shipments of Montana barley to out of State destinations during the first half of the 1973 marketing year (July to December 1973) declined 17 percent from the same period one year ago. Most of the decline is attributed to decreased trucking of barley westward from District 2, although increased movement westward by rail partially offset this decline. Both July 1, 1973 carry-in stocks and 1973 production were below the previous year.

Eastern movement during July - December 1973 totaled 1.5 million bushels--a decrease of 45 percent from the corresponding period one year ago. Western movement for the same period was 7 percent less than a year ago at 8.1 million bushels.

Trucks hauled 1.7 million bushels of barley to out of State destinations during July - December 1973--a decline of 51 percent compared with July - December 1972. Rail shipments totaled 8.0 million bushels--a decrease of 3 percent compared with July to December 1972.

This report is based on data from commercial elevators representing nearly 95 percent of the commercial storage capacity in Montana and from licensed truckers. Barley moving through unrecorded channels is not included.

Released: June 19, 1975 - Helena, Montana

### MONTANA BARLEY SHIPPED TO OUT OF STATE DESTINATIONS

BARLEY MOVEMENT DECREASES: Montana barley shipped out of State during January - June 1974 totaled 12.7 million bushels compared with 17.7 million during the first half of 1973 (a 28 percent decline). District 2 accounted for 57 percent (7,238,000 bushels) of the out of State shipments.

Barley movement to eastern out of State destinations totaled 867,000 bushels (down 518,000 from 1973). Grain headed west amounted to 11,575,000 bushels—a 28 percent decline from 1973's 16,068,000 bushels.

Most of the trucked barley moved west and was 8 percent less than the 1973 January - June total. Grain trucked east plummeted 89 percent (from 231,000 to 26,000 bushels). Total rail transport was shown to be 9,472,000 bushels—down 23 percent.

The data in this release are furnished by commercial elevatora accounting for about 95 percent of the commercial storage capacity in Montana and from licensed truckers. Barley moving through unrecorded channels is not included.

Released: November 17, 1975 - Helena, Montana

STATE

### MONTANA BARLEY SHIPPED TO OUT OF STATE DESTINATIONS

JULY - DECEMBER 1974 BARLEY MOVEMENT UP 31% FROM 1973: Montana barley shipments to out-of-State destinations in the last 6 months of Calendar Year 1974 totaled 12.7 million bushels--31 percent more than 1973 shipments. This was in contrast to the 38 percent less production in 1974 compared to 1973. Barley hauled to western destinations accounted for 82 percent of total barley shipped out of State; in 1973 the western share was 83 percent.

Trucks carried 24 percent of the 1974 July - December barley movement compared with 17 percent in 1973.

This report is based on data from commercial elevators representing nearly 93 percent of the commercial storage capacity in Montana and from licensed truckers. Barley moving through unrecorded channels is not included.

# Montana Barley Movement Summary

## JANUARY - JUNE -- 1974 & 1975

Montana Department of Agriculture
Montana Wheat Commission

Statistical Reporting Service
USDA

Released: April 2, 1976 - Helena, Montana

### MONTANA BARLEY SHIPPED TO OUT OF STATE DESTINATIONS

BARLEY SHIPMENTS DOWN SHARPLY DURING FIRST HALF: Out of State shipment of Montana barley during January - June 1975 amounted to 6.9 million bushels--down 45 percent from the same period a year ago. Barley from District II accounted for 66 percent (4.5 million bushels) of the out of State shipments.

Eastern out of State destinations received 720,000 bushels of Montana barley during the first six months of 1975 compared with 867,000 bushels a year earlier. Westward moving barley totaled 6,081,000 bushels in 1975 compared with 11,575,000 bushels in 1974, a 47 percent drop.

An estimated 2,119,000 bushels of barley was transported by truck, which accounts for 31 percent of the total (up from 25 percent a year ago). Shipments by rail totaled 4,799,000 bushels--down 49 percent from a year earlier.

The 1975 data in this release are furnished by commercial elevators accounting for about 91 percent of the commercial storage capacity in Montana and from licensed truckers, (coverage for 1974 data was 95 percent). Barley moving through unrecorded channels is not included.

# MONTANA WHEAT & BARLEY MOVEMENT SUMMARY

## JULY - DECEMBER 1974 & 1975

Montana Department of Agriculture
Montana Wheat Commission

Statistical Reporting Service
USDA

Released: April 30, 1976 - Helena, Montana

### MONTANA WHEAT MOVEMENT

Montana wheat shipments to western destinations July - December were considerably higher in 1975 compared with 1974 and eastern movement was double the previous year.

The 1975 July - December movement of 7.2 million bushels to eastern U. S destinations accounted for 12 percent of total shipments. Last year the eastern movement for the same time period accounted for 7 percent of the total.

Trucks hauled 21 percent of the wheat destined for out-of-State locations in 1975 (July-December) compared with 16 percent in 1974 and 15 percent in 1973.

Railroads carried the major portion of 1975 wheat shipments with 81 percent of movement west traveling by rail and 78 percent of movement east going by rail.

## MONTANA BARLEY MOVEMENT

Montana barley shipments to western destinations July-December fell off sharply in 1975 compared with 1974, while eastern movement increased.

The 1975 July-December movement to eastern destinations accounted for 33 percent of total shipments. Last year the eastern movement for the same time period was 14 percent of the total.

Trucks hauled 26 percent of the barley destined for out of State locations in 1975 (July-December) compared with 24 percent in 19 4 and 17 percent in 1973.

Railroads carried the major portion of 1975 barley shipments, with 65 percent of movement west traveling by rail and 96 percent of movement east going by rail.

### MONTANA WHEAT MOVEMENT

Montana wheat shipped to out-of-State destinations January-June 1976 totaled 47.0 million bushels.

Railroads carried the major share, with 35.3 million bushels--75 percent of the total. This compares with 69 percent carried in the January-June period last year.

Montana wheat hauled to western destinations totaled 39.7 million bushels--84 percent of the total recorded movement. This compares with 88 percent going west last year.

Total movement to eastern destinations expanded in volume and the percent of total increased to 13 percent compared with 10 percent a year ago.

## MONTANA BARLEY MOVEMENT

Montana barley shipped to out-of-State destinations January-June 1976 totaled 10.1 million bushels.

Railroads hauled 5.0 million bushels of barley to out-of-State destinations and trucks carried 5.1 million bushels. Truck volume represented over 50 percent of the January-June 1976 movement compared with 31 percent in the same period a year ago.

Barley movement to western destinations fell to 60 percent of the total movement compared with 88 percent last year. Both rail and truck movements east were up from a year ago and also above the July-December 1975 marketing period.

## MONTANA WHEAT MOVEMENT

Montana wheat shipments to out-of-State destinations in June-November 1976 totaled 47.9 million bushels. Movement to destinations west of Montana amounted to 39.2 million, east 7.8, and other destinations .9 million bushels.

Rail cars hauled 36.5 million bushels, with 30.4 going west and 6.1 going east.

Trucks hauled 24 percent of total wheat leaving Montana in the June-November 1976 period; in the July-December 1975 period, trucks accounted for 21 percent.

Year to year comparisons of the movement data shown below are not valid for most purposes because the 6-month period has been shifted. The shift was made to align movement data with the revised USDA marketing season for wheat and barley which is now June-May.

## MONTANA BARLEY MOVEMENT

Montana barley shipped to out-of-State destinations in the 6-month period June-November 1976 totaled 9.3 million bushels. Barley moving west amounted to 6.8 million, east 2.4 million, and other destinations less than .2 million.

Rail cars carried 6.4 million bushels, with 4.5 million going west and 1.9 million going east.

Trucks hauled 31 percent of total barley leaving Montana in the June-November 1976 period. In the July-December 1975 period, trucks carried 26 percent.

and
Montana Wheat Commission

Released: August 18, 1977--Helena, MONT.

AUG 22 '77 STATE DOCUMENTS

Montana wheat shipped out of State December - May 1977 totaled 40.9 million bushels. This is 13 percent less than in the 6-month period January - June 1976. Railroads carried the major share, with 29.9 million bushels or 73 percent. The railroad's share declined 2 percent this year from 75 percent in January - June the previous year.

Montana wheat hauled to western destinations amounted to 35.3 million bushels--86 percent of the total recorded movement.

Last year, 84 percent moved west in the January - June period.

Year-to-year comparisons of the movement data shown below may not be comparable for some purposes because the 6-month period has been shifted to alignment with the revised USDA marketing season. The new marketing season for wheat and barley is June-May.

# WHEAT & BARLEY MOVEMENT

JUNE - NOVEMBER 1977
JUNE - NOVEMBER 1978

MONTANA CROP & LIVESTOCK REPORTING SERVICE
Economics, Statistics, and Cooperatives Service—USDA
Montana Dept. of Agriculture
P.O. Box 4369—Helena, MT

Released: February 5, 1978

## WHEAT MOVEMENT

Montana wheat shipped to out-of-State destinations in the 6-month period June-November 1978 totaled 52.7 million bushels. This is 14.1 million bushels more than was shipped in the same time span last year. Rail movement accounted for 7.8 million bushels of the increase, while trucks accounted for 6.3 million of the increase.

Total truck movement was 16.8 million, which is 32 percent of all shipments. This compares with 27 percent in the 6-month period of 1977 and 24 percent in the 1976 period. Rail movement east totaled less than a million bushels as volume fell 49 percent below 1977 and was 84 percent below 1976--the recent high point. Rail west by contrast was up 33 percent from last year and 15 percent above the same period 2 years ago.

## BARLEY MOVEMENT

Montana barley shipped to out-of-State destinations in June-November 1978 totaled 8.5 million bushels--a 70 percent increase over the same period in 1977 but 9 percent below the 1976 6-month span.

Movement east exceeded last year slightly but westward movement was 79 percent over the June-November 1977 period. Truck movement at 5.4 million exceeded the 1977 6-month period by more than 4½ times. Trucks moved 63 percent of total shipments compared with 22 in 1977.

Total 1978 rail movement in June-November was 3.1 million bushels--19 percent less than 1977 and 51 percent less than 1976.

## WHEAT MOVEMENT

Montana wheat shipped to out-of-State destinations amounted to 38.6 million bushels in the 6-month period June-November 1977. This was 19 percent less than in the same period in 1976. Rail movement to eastern destinations shows the greatest reduction--down 69 percent (4.2 million bushels). Rail movement west was down 14 percent, with a 4.2 million bushel reduction also.

Trucks hauled 8 percent less wheat than last year, while railroads hauled 23 percent less.

Movement was most restricted, compared with last year, in the northeast, south central and southeast.

## BARLEY MOVEMENT

Montana barley shipped out of State in June-November 1977 amounted to 5 million bushels--only slightly more than half the amount shipped in the 1976 six-month period.

Barley shipped east was down 62 percent from last year, while shipments to the west were down 45 percent.

Trucks carried 22 percent of the barley compared with 31 percent last year.

# MONTANA WHEAT AND BARLEY MOVEMENT SUMMARY

## DECEMBER 1977 - MAY 1978

MONTANA CROP & LIVESTOCK REPORTING SERVICE
Economics, Statistics, and Cooperatives Service—USDA
Montana Dept. of Agriculture
P.O. Box 4369—Helena, MT.

Released: August 25, 1978

Montana wheat shipped out of State December 1977 - May 1978 totaled 43.8 million bushels. This is 7 percent more than in the same 6-month period last year.

Shipments to western destinations at 40.1 million bushels increased 14 percent but eastern movement at 2.8 million was sliced by 40 percent.

Railroads carried the major portion of wheat shipped out of State but their share slipped from 73 percent last year to 70 percent this year. Rail movement west totaled 29.4 million bushels--9 percent more than a year ago, while rail movement east at 1.1 million was down 63 percent from last year.

Truck movement to eastern destinations was off only 1 percent and western movement increased 28 percent.

## WHEAT MOVEMENT

Montana wheat shipped to out-of-State destinations in the 6-month period, 1979 June-November, amounted to 58.3 million bushels--11 percent more than in the same period the previous year. Wheat moving west accounted for 94 percent of the total of 54.9 million bushels.

Trucks hauled 20.3 million bushels--a 21 percent increase over the previous year. Rail movement was up 6 percent at 38.0 million. Truck movement of wheat accounted for 35 percent of total movement June-November 1979, compared with 32 percent a year earlier.

The amount hauled west by trucks was up 27 percent but the amount going east by that mode was down 34 percent from a year ago.

Rail movement east, showing an 81 percent increase, more than made up for the reduced truck movement east. Rail movement of wheat to western destinations was 4 percent above the previous year.

## BARLEY MOVEMENT

Montana barley shipped to out-of-State destinations in June-November 1979 totaled 11.7 million bushels--a 38 percent increase over the same period in 1978 and more than double the 1977 movement.

Movement east nearly doubled last year and westward movement was 36 percent above the June-November 1978 period.

Truck movement at 5.1 million was below 1978 by 4 percent.

Rail movement at 6.6 million bushels was more than double 1978. Eastern destinations received 1.3 million by rail compared with .3 million last year. Rail movement west at 5.0 million was 81 percent over a year ago.

## WHEAT MOVEMENT

Montana wheat shipped out-of-State in the 6 month period December 1979 - May 1980 totaled 39.9 million bushels--17 percent less than in the same period a year ago. A 10 million bushel reduction in winter wheat movement was responsible for the decline. Spring wheat shipments increased 1.9 million bushels only slightly offsetting the winter wheat decline.

Truck movement fell off 27 percent while rail movement was down 10 percent. Movement to western destinations was down 19 percent but eastern destinations show 2 percent more volume compared with last year.

## WHEAT MOVEMENT

Montana wheat shipped to out-of-state destinations in the 6 months June-November 1980, was down 35 percent from the same period last year.

Wheat moved by rail was down the most and represented less than half the 37.7 million bushels shipped. Trucks carried 19.1 million to out-of-state destinations, nearly 51 percent of the total.

Rail movement to western destinations totaled 17.1 million bushels--the smallest amount since 1971. Rail movement east was in a near normal range but was down 16 percent from last year. Truck movement west was down 10 percent from last year, but movement east was up 82 percent.

## WHEAT MOVEMENT

Montana wheat shipped to out-of-state destinations in the 6 month period December 1980 - May 1981 totaled 41.6 million bushels--up 4 percent from the same period a year ago. Railroads carried the major share with 29.3 million bushels or 70 percent of the total. This compares with 65 percent carried in the December - May period last year.

Montana wheat hauled to western destinations totaled 39.1 million bushels--94 percent of the total recorded movement. This compares with 92 percent going west last year.

Total movement to eastern destinations dropped slightly and the percent of total fell to 5 percent compared with 6 percent a year ago.

## WHEAT MOVEMENT

Montana wheat shipped to out-of-state destinations during June-November 1981, at 46.7 million bushels, was up 24 percent from the same period in 1980.

Wheat moved by rail was up 79 percent while the amount moved by truck was down 30 percent. Trucks carried only 29 percent of all wheat moved out of Montana compared with 51 percent last year.

Total movement to eastern destinations was cut in half, compared with last year, while movement to western destinations was up 32 percent.

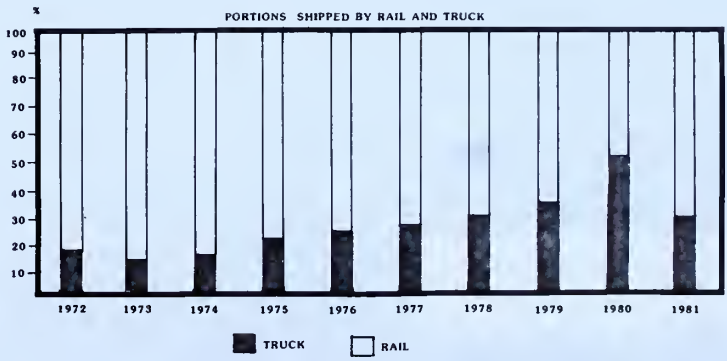
1/ This report is based on data reported by commercial elevators and licensed truckers. The reported data were expanded to represent 100 percent coverage of elevator capacity.
2/ Includes durum. 3/ Other and unknown.



## BARLEY MOVEMENT

Montana barley shipped to out-of-state destinations in June-November 1981 was 8.6 million bushels, up 22 percent from the same period last year.

The amount moved by rail was nearly the same as last year, but truck movement was up 40 percent from 1980.

Total movement to western destinations was up 29 percent, but movement to eastern destinations was down 35 percent from last year.
